No.G-111 Office of the Superintending Engineer,
Karnatak Irrigation Circle,
Via Dharwar, 14th June 1949.

To
The Secretary to Government,
Public Works Department,
Bombay.

Subject: Machinery for the Ghataprabha Left Bank Canal
--

I have sent separately a list of earth moving machinery immediately required for the Ghataprabha Left Bank Canal - vide this office letter No.G-111 dated the 13th June 1949, addressed to the Director of Industries and copy endorsed to you. Enquiries made by me with some ~~of~~ Firms in Bombay dealing in such machinery reveals that none of the items ~~are~~ available from stock except one Tractor-drawn Scraper (without Tractor) of 11 Cu.Yd. ~~struck~~ leased capacity which is available with Messrs.Larsen & Toubro. I learnt that it is tentatively reserved for Madras Government. But from the conversation I had with the representative of the Firm, it appears possible to get it for us if an order is placed immediately. I have inspected the Scraper and think that it is suitable for our requirements and can be operated by one or two of the Tractors recently received ~~for~~ Ghataprabha from ~~Mysore~~, ~~Aurangabad~~ which otherwise will be idle for want of suitable attachments. We have also got the establishment required to work this machinery already trained. The question of availability of Dollar exchange does not also arise.

(Order will be put up if reqd.)

2. Two ~~Nos.~~ Compressors with complete rock drilling equipment have already received on the site, but they cannot be put into operation satisfactorily unless the overburden of soil and murum is removed for which Scrapers are badly needed. We were counting upon the two carry-all Scrapers with Tournapulls allotted to Ghataprabha from Gangapur. These, however, have since been withdrawn - vide Government Letter No.6572/36(2)-Con-I, dated 25-5-1949 and the position of Ghataprabha Works has become more difficult.

3. In the circumstances I would request that the Director of Industries may please be instructed to place a firm order for the Scraper readily available with Messrs.Larsen & Toubro and in the meantime the Firm may be requested to reserve the equipment for us. An extract giving the specifications and approximate cost of the Scraper is enclosed herewith.

(Part No. XI being submitted separately)

D.A: 1 Extract. p.1

Superintending Engineer,
Karnatak Irrigation Circle.

Copy forwarded with compliments to the Director of Industries and Stores Purchasing Officer, Bombay.

Copies forwarded with compliments to the Executive Engineer, Ghataprabha Left Bank Canal Division, Dhupdal, P.O.Ghataprabha, for information.

Certain machinery is required for the construction of the Ghataprabha Left Bank Canal Project. A list @ showing the machinery required for this Project has been submitted by the S.E. K.I.C., to the Director of Industries & Stores Purchasing Officer with a request to call for quotations, after the receipt of which the S.E. will move Govt. for the purchase of the machinery. Amongst the machinery required for the G.L.B.C. Project is a Scraper, which is available with Messrs. Larsen & Toubro Ltd., Bombay From the S.E's letter it will, however, be observed that unless we place immediate firm order, this Scraper is likely to be sold to Madras Govt. The S.E. therefore requests that the Director of Industries & Stores Purchasing Officer may be instructed to place a firm order immediately for the Scraper available with Messrs. Larsen & Toubro. This Scraper as pointed out by the S.E. is very badly required for the construction of the important Project of this Govt.

@ Being dealt with separately

2. The cost of the Scraper proposed to be purchased is about Rs. 34,000 and it will be met from the provisions often made for Ghataprabha Project under the head "68 - P.W.R. & D.P." The question of dollar exchange does not arise in this case.

3. As the matter is very urgent, the draft put up may issue after submission of papers to H.M., P.W.D. They will be shown u.o. to the T.O. hereafter.

Thro' AB (II)

Dy. Engr (R&B)
Engr (G)
H.W, P.W.D.

I was told by S.E. K.I.C. that the scrap available is one against which price shown is Rs 31,224/- as at 'A' on p-1. It is for consideration whether the order

may be placed. Papers may be shown to Secy. F.D. before submission to H.M.P.W.D.

15/6/49

As there is provision for the purchase of this machine in the estimate & as it is urgently required, the permission may be granted to buy it. Secy (I)

15.6.49

It must invariably be placed on Secy. F.D. 16.6.49
order with one firm without inviting competitive tenders. Why can the purchase not be made through S.P. Organisation? H.M.P.W.D.
If necessary we could discuss on the phone.

16.6.49.

Secy. P.W.D (I).

I have discussed this with Secy F D On 18.6.49. I have no desire whatsoever to place a direct order on any firm for anything required & all such orders are being placed through S.P.O. In this case the preliminary work of making enquiries from local firms was carried out by SE & he had located one such machine lying with a firm meant for Madras Govt, which it was possible to get if an immediate order was placed. If Secy F D approves the purchase, SPO will be asked to place the order.
